Hand Truck Features

B&P *Liberator* hand trucks are the strongest, safest and longest lasting hand trucks ever made - backed by an industry exclusive 2 year warranty!

Extensions:

- Choose from traditional channel style or B&P exclusive heat treated tubular extensions.
- Channel available in 52", 55", 60" and 68"
- Tubular available in 62" and 68"

Channel

Frames:

- 600 lb. vs competitors 500 lb. capacity hand trucks.
- 4 sided ribbed cross members and top logo channel for rigidity & strength.
- Logo channel also allows room for custom company decal.
- Assembled with exclusive military grade rivets used on aircraft won't loosen up.

Powder Coating:

- Exclusive frame and/or stair climber powder coating available in red, blue, green & black.

Wheel Brackets:

- B&P Exclusive extruded brackets are guaranteed for life never to crack or break.

Handles:

- Large selection of handles.
- Red or blue comfort sleeves on some handle options.
- Exclusive heat treated welded style handles for greater strength.

Stair Climbers:

- Extruded much more durable than cast.
- Extra thick reversible bolt on wear strips outlast all others many times over.
- New E1E Ergo Stair Climber to maneuver stairs with less effort.

Side Channel Reinforcements:

- Bolted at top and bottom which spreads out stress to resist cracking or bending of frames. Competitors only bolt them at the bottom.

Nose Plate Brackets:

- Extra thick & solid brackets won't crack or break.
- Beveled to inside of frame to eliminate gaps which allow for play and loosening up over time.

B&P components are interchangeable with other manufacturers to make existing hand trucks last longer!

S-Series Convertibles

The "S-Series" convertible hand trucks feature the same high quality components and construction as the Liberator trucks, in a standard capacity, lower cost design.

SSR-2 **Liberator**

- Senior Convertible.
- Extruded aluminum frame with logo channel.
- 18" x 7.5" cast aluminum nose plate (CA2)
- 10" x 3.5" 4 ply pneumatic wheels with precision bearings (D5).
- Heavy duty casters with wing brake.
- Extruded axle brackets.
- 500/1,000 lb. capacity.

SJR-2 **Liberator**

- Junior Convertible.
- Welded double grip handle.
- Extruded aluminum frame.
- 18" x 7.5" cast aluminum nose plate (CA2).
- 10" x 3.5" 4 ply pneumatic wheels with precision bearings (D5).
- Heavy duty casters with one wing brake.
- Extruded axle brackets.
- 500/1,000 lb. capacity.

Luggage Handler

- Carpeted back panel
- Loop handle with 52" extension
- Garment hanger hook
- Cast 14" x 7 1/2" nose plate
- 8" wheels (D12)
- 30" carpeted folding nose, (300 lb. capacity)

Also available without carpet.

Model # A1-B1-CA1-D12-E52-E3RC-CB-E16

Carpeted Deck Platform Truck with Full Protective Bumper

Handles are 29.5" high with 18" panel

Carpeted deck with full protective bumper

8"x2" or 6"x2" TPR non-marking casters, 2 swivel/2 rigid

Extra rugged box frame construction provides superior strength and resistance to twisting and warping

Full 1/4" heavy duty caster plates for durability

Engineered handle pockets keep handles in place while in use - Easily removable for storage

Exclusive side rail material structurally incorporates the 1/8" deck into place for resistance to curling and exceptional torsional strength and allows for installation of full protective bumper

Bulk Delivery Cart

Minimize Risk of Accidents...

- Optional brake system locks both center wheels to prevent movement while loading/unloading. Carts stay in place while being transported or unattended. Brakes can be set from both sides and both ends for convenience.
- Ergonomic round handle is easier on driver's hands.
- Heavy duty understructure reduces risk of injuries and spills due to caster failure.
- Widest wheelbase in the industry. Makes the cart more stable.
- One piece formed deck eliminates "peeling" that can cause product damage and driver injury.
- Exclusive cover system contains product even with one side open. Helps protect product from shifting during transportation.

Maximize Return on your Investment...

- Handles are reinforced and heat treated reducing the risk of bending. Welded design won't loosen over time like riveted designs.
- One piece deck eliminates peeling of the top skin, broken welds and prevents waving and warping inherent in welded deck designs.
- Caster plates are full width and full perimeter welded reducing damage caused to carts by twisting during use.
- Heavy duty support structure for center wheels reduces risk of failure compared to caster designs.
- Full length stringers are integrated into deck providing additional strength and support.
- Corner pockets are fully welded preventing them from breaking out.
- Industry exclusive 3 Year Warranty

Aluminum Platform Trucks

FORMED

- Formed deck design is strong and lightweight
- Extremely durable
- Design eliminates warping and waving
- Tread plate or smooth plate decks available
- Deck capacity 2,000 lbs (unless limited by caster capacity)
- Competitively priced against wood deck design
