

Exclusive No-Flat Wheels

D15 - 10"

D16 - 8"

D15 & D16 Features

- **Ballon cushion** style for a narrower hand truck wheel base.
- **Great choice** for smooth or semi-smooth, hard surfaces such as city sidewalks or delicate floors.

D6SS - 10"

Compatible
with disc
brakes!

D6SS Features

- **Lightweight** and provides better shock absorption than foam filled wheels.
- **Great choice** for outdoor, rough or uneven surfaces and ideal for inclement conditions such as snow, slush, and mud.

Shared Features

- **High impact**, super durable and lightweight polypropylene hub.
- **Closed cell** polyurethane, non-marking tread and crowned for easy rollability and turning.
- **Proprietary** precision sealed, long lasting bearings.
- **Indented tread** is resistant to cracking/ breaking and will not roll off the hub.
- **Reduces** hand truck weight by approximately 3 lbs or more depending on your current wheel.
- **600 lb capacity per pair**
- **Industry leading 2 year warranty!**

Indented hub design
eliminates the need for
adhesive.

Beware of cheap
imitations. Look for the
B&P logo on the hub.
