

Cabinet Dollies

Dollies are used for transporting loaded cabinets over short level distances. Floor lock keeps the cabinet in place during use. Prevents unwanted movement.

- Lightweight and easy to maneuver.
- Available in 4,000, 6,000, & 8,000 lb. capacities.
- Rugged construction of extruded aluminum with steel axles.
- Tilt and non-tilt versions available.
- Welded aluminum deck available forming a solid top.
- Optional center support crossbar.
- Optional handle and handle loops.

Roller Configuration

4,000 lbs capacity - 6 Roller

6,000 lbs capacity - 8 Roller

8,000 lbs capacity - 10 roller

| P/N | Description |
