E1L Stair Climber Assembly Instructions

1. To add stair climbers to your hand truck first remove the wheels and set aside.
2. Fasten the lower end of the stair climber (A) to the inside of the wheel bracket. For disc brake hand trucks fasten the stair climber to the outside of the axle bracket . Secure the stair climber with 1-3/4" bolts (D) and lock nuts (F).

Installation with 10" wheels,
with or without tread brakes.

3. Fasten the top of the stair climber (A) to the frame using the outer clip (B) (sliding the clip tabs into the frame channel) and the inner clip (C) securing with the 2" bolt (E) and lock nut (F). Tighten and repeat on opposite side.

4. Reattach wheels.

Installation with 8" wheels, with or without
tread brakes. (Flip stair climber orientation)
